

# Python\_Notebook\_Review

January 23, 2024

```
[ ]: name = input("What's your name?")  
print("Hi " + name + "!")
```

## 1 Here's a header

Here's some text with a word in **bold** ## Here's a sub-header *Here's some italic text.*

And here

- is
- a
- bullet
- list

~~Here is me editing~~
